Re: Werner Church Road Bridge Replacement Project

Dear Resident:

The Stark County Engineer's Office (SCEO) is currently in the preliminary design stage for the replacement of the Werner Church Road Bridge over the Middlebranch of the Nimishillen Creek.

While we are in the preliminary design stage, our office would like to provide information on the project to the public and also seek your input on alternative designs.

Therefore, we are inviting the neighboring property owners/residents to a public meeting on Thursday October 25, 2012 from 5:00 PM to 7:00 PM at the Plain Township Hall. This will be an informal meeting. We will have project displays and handouts and will be taking your comments, questions and input on possible future transportation improvements. There will be no formal presentation, so you may attend the meeting at any time between 5:00 PM and 7:00 PM.

Enclosed, please find some information on the project and the proposed alternatives. This handout will also be available at the meeting. We have added a tab to our website that has this information as well as schematic drawings of the alternatives. Just visit our website at www.engineer.co.stark.oh.us and look under the "Projects" tab on the left hand side.

Thank you for your interest in this important project. If you have any questions in advance of the meeting please contact either Dave Torrence or Scott Basinger at the Engineer's Office at 330-477-6781.

THURSDAY OCTOBER 25, 2012
5:00 PM – 7:00 PM PLAIN TOWNSHIP HALL
2600 EASTON STREET NE
CANTON OHIO 44721

Sincerely,

A handwritten signature in blue ink, appearing to read "Keith A. Bennett".

Keith A. Bennett P.E. P.S.
Stark County Engineer
